

JLG Forklift Parts

JLG Forklift Parts - After retiring in the late 1960's, John L. Grove started out on a cross country RV trip. After spending numerous years establishing his family built crane business with his brother, John had no idea that this journey would give birth to the rise of JLG Industries, Inc. The world leader of mobile aerial work platforms and precision material handling equipment was the end consequence of a road expedition.

All through their journey, John reacquainted himself with previous business connections along the way. In combination with these conversations and a significant event; two workers had been unfortunately electrocuted on scaffolding when the Groves were passing through the Hoover Dam. John uncovered an infinite market for a product that could promptly and securely elevate people in the air to accomplish upkeep and other building services.

Upon returning from their travels, John established a partnership with two friends and obtained a metal fabricating company in McConnellsburg, Pennsylvania. In 1970, opening operations with a crew of twenty staff, they built and sold the first JLG aerial work platform. The business incorporates many of the simple design elements of that original lift into existing models.

Since then, JLG Forklifts have come a long way from when Mr. John L. Grove came back from his fatefull cross-country journey and since the first JLG aerial platform entered the marketplace. As of today, the business has expanded itself into several global marketplaces and continues to develop new machinery to guarantee that consumers are able to become safer and more resourceful within their workplace.
