

Forklift Spreader Bar

Forklift Spreader Bars - Proudly operating since the year 1974, ELME Spreader AB is the largest independent spreader manufacturer all-around the globe. They have been a devoted producer of spreaders for different applications like for instance the trailers, handling of containers and swap bodies.

Engineering is done in-house by making use of all the latest CAD systems and FEM tools. The ELME business currently has over 125 staff members. Their spreaders are supplied to reach straddle carriers, lift trucks, gantry, quayside, ship-to-shore cranes and stackers across the world.

The ELME product range offers spreaders used for several container and trailer handling operations. A few of their inventory include: Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift trucks plus a wide range of attachments.

ELME production and manufacturing is performed in a highly automated purpose built factory. In the year 2008, they created more than 1150 spreaders by making use of top quality elements so as to ensure dependability and high standards while offering competitive prices. Major features of ELME include design simplicity, market reaction and inventive modular spreader concept.
