

Clark Forklift Parts

Clark Forklift Parts - Performing globally, there are now 350,000 Clark forklifts and lift trucks in operation, with in excess of 250,000 of those in service in North America. Clark has five main lines of forklifts across the globe, making it one of the most expansive organizations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift has 20 unique brands of lift trucks, with components covering more than 120,000 particular parts for all of its automated equipment. Your regional Clark Supplier is your complete source for availability of all your components needs offered by Clark Totalift.

Clark features a phenomenal Parts Distribution team. The components warehouses are conveniently situated in Changwon, South Korea and Louisville, Kentucky to ensure exceptional service to both their buyers and their sellers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing manufacturers. Driven to provide the highest level of value and service to our clients, Clark remains on the leading edge when it comes to improving output and benefiting performance.

Globally, Clark has one of the most amazing supplier support networks. With over 550 locations globally, seller representation in over 80 countries and 230 locations in North America, their high level of dedication to their consumers predominates the material handling industry.

Clark proudly remains an progressive leader of the material handling industry, revolutionizing protection features such as the worker restraint system. This exceptional dedication to safety is currently a customary feature on every forklift.

Clark's recurrent goal to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck producer across the globe to be certified with the internationally accepted quality standard ISO 9001 for every one of their production facilities. Also, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be ready for any environmental restrictions, thus placing them in a prevailing industry position.

Clark has chosen the structure of "Lean Production" at all of its assembly plants for the reason that this system is extremely economical and enables minimal use of resources. Developed to ensure maximum proficiency, this system is designed to find and acknowledge the most efficient methods for production facility stewardship. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers join together to improve the efficiency and excellence of their merchandise while minimizing expenses. The new value engineering agenda combines innovative product improvement and offers improved customer support and service within the industry.
