

TCM Forklift Parts

TCM Forklift Parts - In the international business of material handling, lift trucks play an important part for transporting industrial goods. Originally innovated as industrial vehicles during the 1930s in the United States of America, lift trucks gained recognition after WWII in the 1940s. Becoming a reliable and efficient means to material handling solutions, the practicality and need of these machinery spread globally.

In nineteen forty nine, founded by Mr. N. Niwa, the first Toyo Carrier Manufacturing Company Limited, which was later named Toyo Umpanki Co, was recognized. Presently the company is simply called TCM Corporation. Over the years, TCM lift trucks have become a worldwide leader in lift truck manufacturing and have built a solid reputation in the business. TCM started building lift truck manufacturing sites outside of Japan in the 1980s and is presently engaged in lift truck manufacturer at three foreign factories in China, the United States and Europe.

TCM proudly makes various models of industrial forklifts with over 50 years of accumulated technology and expertise, making their products recognized and used all over the world. Characterized by strong initiatives and energetic staff, TCM continues to look toward the future and aims to become a world-class leading company.
